## Memorandum (Synthetic Example)

---

**To:** Example Distribution List  
**From:** Dr. Sam Example, Research Director — CiDR Lab  
**Date:** January 15, 2026  
**Re:** Sample branded memo for skill testing

---

### Summary

---

This is a synthetic memo used to exercise the cidr-letterhead docx pipeline. All content is fictional.

### Details

---

It builds a Word document from cidr\_brand.js — masthead, brand palette, Inter styles, and the affiliation footer — then embed\_fonts.py finalizes the embedded Inter faces so it renders anywhere. Contact [sam@example.org](mailto:sam@example.org) with questions.

### Next steps

---

Convert to PDF with LibreOffice for a shareable deliverable.
